Performing Artist & Photographer, San Francisco

The Gerry Berreman Digital Archive

From 2011 to 2014 during which I was a student at the University of San Francisco, I worked with Gerald Berreman on the project to digitize and annotate his slides—more-than-two-thousands of them—that he took in India from the year of his field research in 1957 up to his last visit in 2000. The project was titled, "Gerald Berreman: Archives of a Lifetime." The results can be seen at the website: http://geraldberreman.com/
